

## RESOL press release

Hattingen, 13 April 2016

### No time for a trade fair visit? Visit our virtual trade fair booth!

The trade fair season is in full swing – the MCE in Milan and the ifh/INTHERM in Nuremberg are behind us already, two more appointments in Munich and Istanbul are still to come.

All who lack the time to visit us on one of these trade fairs are welcome to take a look around our online trade fair booth. You will find information about all products exhibited as well as useful links to product documents and technical specifications.

Of course, you can also browse through our catalogue or watch our product and company videos.

We look forward to your visit – be it on site or online! You can find our virtual booth on [www.resol.de](http://www.resol.de)
