

RESOL press release

Hattingen, 03 July 2025

Fit for long-distance travel!

We've got some good news for all those who are looking for solar and heating controllers to suit their overseas markets – our DeltaSol® SLL, SL and SLT as well as the DeltaTherm® HC mini (from version 2.0) controllers are certified for the North American and Australian markets!

The DeltaSol® SLL, SL and SLT solar controllers are equipped with 4 relay outputs and a number of connection possibilities for different sensors. With numerous pre-programmed systems and optional functions they can control a broad range of different solar and combined systems

The DeltaTherm® HC mini heating controller offers a compact and user-friendly solution for simple heating systems. It features a weather-compensated heating circuit that can also be used for cooling purposes.

All four controllers have the SAA certificate for Australia and New Zealand as well as the cLCus certification for Canada and the USA.
