

The ErP Directive – RESOL is ready!

Standby

Energy efficiency

Temperature controls class

ErP data controller

Nominal pump output

In the context of energy labelling, space heaters, water heaters and hot water stores must fulfil new information requirements from 26 September 2015.

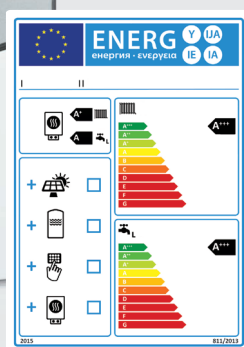

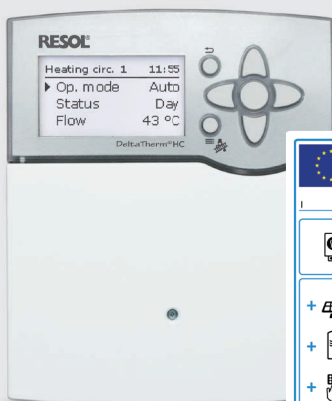

Further information can be found in the technical data of our controllers and pump stations in our catalogue and on our website.

Upon request we will provide you with a table containing the ErP values of our products.

New:

The approved *DeltaTherm®* HC heating controller, for example, reaches the temperature controls class VIII and has many new features:

- Modulating heating control with 0-10V boiler control
- Weather-compensated control with room influence or demand-based room control with up to 5 room temperature sensors
- Remote access with a room control unit or the VBus®Touch HC App
- Controller ErP kits incl. a room control unit and the room temperature sensors required
- Your advantage for energy labelling: Energy efficiency contribution of up to 5 %

RESOL also offers suitable ErP kits including a room control unit and the room temperature sensors required.

Thus, complying with the ErP classes becomes even easier.

Benefit from our ErP kits!

ErP 6 kit

RESOL DeltaTherm® HC – ErP 6 kit

Incl. 1 x FAP13, 1 x FRP21, 1 x FRP6, 1 x RCP12

Price bracket A | Article no.: **115 005 73**

A PWM / 0-10V adapter cable and an SD card are included with the controller

DeltaTherm® HC

RESOL FAP13 Outdoor temperature sensor

The FAP13 is used for measuring the outdoor temperature with a Pt1000 measuring element

Price bracket A | Article no.: **155 008 10**

RESOL RCP12 Room control unit

With the RCP12, the heating curve can be comfortably adjusted from the living area. The integrated sensor measures the room temperature

Price bracket A | Article no.: **136 000 50**

FRP21 Cylindrical clip-on sensor

For surface mounting on tubes, Pt1000 version

Price bracket A | Article no.: **155 005 40**

FRP6 Temperature sensor

For installation into immersion sleeves

Price bracket A | Article no.: **155 000 80**

ErP 8 kit

RESOL DeltaTherm® HC – ErP 8 kit

Incl. 2 x FRP12, 1 x RCP12, 1 x FRP21, 1 x FRP6

Price bracket A | Article no.: **115 005 83**

A PWM / 0-10V adapter cable and an SD card are included with the controller

DeltaTherm® HC

RESOL FRP12 Indoor temperature sensor

Used for measuring the indoor temperature with a Pt1000 measuring element

Price bracket A | Article no.: **155 008 90**

RESOL RCP12 Room control unit

With the RCP12, the heating curve can be comfortably adjusted from the living area. The integrated sensor measures the room temperature

Price bracket A | Article no.: **136 000 50**

FRP21 Cylindrical clip-on sensor

For surface mounting on tubes, Pt1000 version

Price bracket A | Article no.: **155 005 40**

FRP6 Temperature sensor

For installation into immersion sleeves

Price bracket A | Article no.: **155 000 80**
